

NESTED - OPEN HEAD PAIL

- Tapered body design allows pails to be nested to maximize storage space and freight costs
- Most versatile and durable design for a wide range of products
- Most cost effective design depending on configuration
- Two different cover styles available
- Will hold a variety of products including hazardous materials
- Strong wire bail handle with grip allows for ease of handling and pouring
- Triplex™ Technology along with a compound curl allows for a high UN rating

TIGHTHEAD - CLOSED HEAD PAIL

- Non-removable top ideal for products that need a higher UN rating
- A variety of fittings available
- Has the highest UN rating available of any pail design and approved for air shipments
- Stackable design
- Strong galvanized steel handle
- Triplex™ Technology throughout the top and bottom seams

STRAIGHT SIDED - OPEN HEAD PAIL

- Straight body design
- Ideal for products that require a follower plate for dispensing products such as adhesives, lubricants and greases
- Two different cover styles available
- Strong wire bail handle with grip allows for ease of handling and pouring
- Stackable design
- Triplex™ Technology along with a compound curl allows for a high UN rating
